A range of spaces support all of the different types of work people do throughout the day—providing places to collaborate, focus, learn, socialize, and rejuvenate.

The best workplaces support the activities of the team while nurturing the needs of individuals.
Place matters because work matters.
The work we do brings meaning and purpose to our lives.

The people we work with matter, too. They are:
Our community.
Our source of inspiration and encouragement.
Our partners in learning and innovation.
Our reminder that what we do makes a difference.

The places where we work matter more than ever.
They need to help us work better together.
They need to help us collaborate better, concentrate better, create better, experiment better, learn better.

Place matters because people matter.
The places where we come together need to care for the physical, cognitive and emotional well-being of people.
They need to provide us choice and control over where and how we work. They need to respect and reflect who we are as individuals, teams and organizations.
They need to be places that make us proud of who we are, what we do and how we work.

Love How You Work.

Space is the body language of your organization. It expresses your brand and culture to your customers and your people. It conveys who you are and what you value.

We can help you create a great employee experience where people thrive and ideas flourish. We’re here to help you with fresh new looks to reimagine your office.

Elements of nature provide inspiration for colors, patterns, materials and light that enhance creativity and wellbeing in the workplace.
Biophilic elements can offer powerful benefits, such as increased focus, lower stress, greater creativity and imagination.
Welcoming, tranquil spaces provide time to think and be alone without disruptions, helping people be more creative.

At Steelcase, we are passionate about understanding how work is changing and its impact on people. We are constantly exploring how the workplace can propel learning, innovation and growth.
Our Story

Since inventing the metal wastebasket in 1912 to prevent office fires, we’ve been driven to solve problems for people at work. It may seem like a simple idea now, but that’s what innovation is all about.

A lot has changed since then. But, one thing has remained the same. Together with our family of brands and partners, we continue to focus on innovation and helping people have a great experience at work.

We continue to focus on innovation and helping people have a great experience at work.
Makers

We design and make furnishings to improve the experience people have at work. Our heritage is all about creating thoughtfully-designed, well-crafted, sustainable products. We think about the details that delight people and actually help them perform better.

We do this by studying how people work to understand their challenges and develop innovative solutions that support them. We also create bespoke solutions right along with you to meet your unique needs and enhance your brand.

We study how people work to understand their challenges and develop innovative solutions that support them.

9 certified test labs around the world. We stand behind our products with an industry-leading warranty.

15 global manufacturing facilities

110,000+ companies served globally in the last five years.

50+ partners and 3,000+ products curated in a broad portfolio on Steelcase Marketplace. Discover, create and collaborate with ease, all in one place.

Who We Are

170
We are constantly experimenting and prototyping to push the boundaries and solve for what’s possible at work.

We’re not afraid to try something new. We test ideas on ourselves—to make them better—before we create anything for you.

Material Innovations
To prevent scrap wood from going to waste, the Steelcase operations team saw an opportunity for a new material offering: planked veneer. Now, planked oak, cherry, maple and walnut veneers embrace the unique characteristics of wood sought by designers.

SILQ is a breakthrough in office seating design. The Steelcase Global Design Studio invented a new material and manufacturing process by pushing the boundaries of materials science.

1,800 global patents received since our first patent in 1914.
Listen designers + expression

Design thinking is in our DNA.
That means we observe, listen and learn from you to deeply understand your challenges. That leads us to not only solve the obvious problems people experience today, but also anticipate issues before they arise. Listening to you and working together is how we can help create a great experience for your employees.

Global Studies
We conduct global studies to understand how the needs of people at work are changing.

- Engagement and the Global Workplace
- Creativity, Work and the Physical Environment
- Steelcase Active Collaboration Study
- Ancillary Spaces

21 WorkSpace Futures researchers, strategists and workplace experts study the future of work globally.

35 global Applied Research Consultants help customers understand how their culture, processes and tools impact their workplace to support their company goals and aspirations.

1M+ data points collected by our space measurement tools. Analysis and insights reveal opportunities to improve how space performs.

Learners
We embrace curiosity because innovation begins with a really good question.
We believe it’s everyone’s job to teach and to learn. Learning happens everywhere—in hallways and cafés—not just in formal classrooms. To challenge our thinking and make ideas better, we welcome diverse points of view and cultivate relationships with all kinds of interesting people—our customers, partners and universities.

Research Network
We collaborate with an extensive research network of partners including MIT Media Lab, Copenhagen Institute for Futures Studies and Zukunftsinstitut.

2 global Learning + Innovation Centers

24 global WorkLife Centers

20 years as a TED partner, helping them create great experiences for forward-thinking speakers and attendees by designing and furnishing the places where TED events and learning happen.

To challenge our thinking and make ideas better, we welcome diverse points of view and cultivate relationships.
Global Partners

We are committed to bringing lasting value to our customers, employees, partners, communities and the environment. We're global partners who want to create meaningful change.

We work together with you and our dealer partners through every step of the process, taking care of every detail, so you don't have to. We help you create and maintain an engaging workplace that adapts as your organization evolves. Our services and capabilities provide the support you need whenever you need it.

800+ global authorized dealers
92,000+ global volunteer hours since 2015
100% of our global electricity use is matched by investments in renewable energy.

20+ third-party verified programs and certifications assure sustainability performance across operations, facilities, materials and products globally.

We are global partners who want to create meaningful change.
