Show your clients how well your designs support their social and environmental responsibility goals

DESIGN for HEALTH™
BY MINDCLICK

Project Score

A Project Score is created through a two-step process.

Step 1: we match the specified products to MindClick's database of rated vendors and products.

Step 2: we average the ratings from each matched product to determine the total points for the project out of a possible 200.

Projects earn a score of **Starter** (up to 99 points), **Achiever**, (100-159 points) or **Leader** (160-200 points).

All projects are automatically entered into our Design
